WELCOME TO BENGALURU

Dear all,

Aviation Fire Safety forms an essential and inalienable component of wide spectrum of Aviation Safety as a whole. It is universally accepted that Aviation Fire Fighting and Rescue are specialized jobs to be handled by well trained professional fire fighters in the event of an aircraft crash. With the dawn of the 21st century this work became more complicated and hazardous with the introduction of new generation wide bodied, multi-level aircraft, which pose challenges to the aviation Rescue and Fire Service personnel. In this context, ICAO emphasizes more importance on the Global Aviation Safety Plan, and it is against this backdrop that the Indian Aviation Fire Safety Specialists Group (IAFSSG) regularly conducts International ARFF Conferences creating opportunities for ARFF experts across the globe to interact more frequently in exchanging their experience and knowledge.

The aviation industry across the globe is experiencing upward growth despite the recession and heavy set backs due to the global pandemic wave. This growth means that we will be handling a greater number of aircraft movements at each airport. Avalon, the international aircraft leasing company, has published a report forecasting that the global commercial passenger aviation fleet will almost double in number by 2042, growing by 94% to reach 46,880 aircraft. The report states that this growth is underpinned by sustained demand for air travel, building on the rapid recovery witnessed since the Covid-19 travel restrictions. The regions showing the biggest increase in travel between now and 2042 will be India (4.4%), China (3.7%), Asia (5.0%) and Latin America (4.9%). Mature markets such as North America (2.0%) and Europe (3.1%) will continue to grow, although at a more moderate rate.

With the bright prospect of India becoming one of the three largest Aviation markets with consequent phenomenal increase in air traffic, all the airports and stakeholders committed to maintaining and enhancing aviation safety standards. Keeping this in mind IAFSSG jointly with Alpha Ascension Safety Consultants (I) P Ltd (AASC) is organising yet another International ARFF Conference and Exhibition at Clarks Exotica, Bangalore, India from 27 Feb to 01 Mar 2024 (International Airport Fire Chiefs Workshop – 27 Feb 24, Conference & Exhibition – 28 & 29 Feb '24 and Rosenbauer simulator-based training on aircraft firefighting – 01 Mar 2024). This event will be a meeting point for Aviation Fire Safety specialists, equipment manufacturers and regulators. The conference will deliberate upon many issues of interest through technical papers and will be addressed to ensure technical advancement and exchange of views. Eminent professionals of Aviation Fire Safety from different countries have been selected to present technical papers. You are cordially invited to participate and help us making this event a grant success.

ORGANISORS :

The seminar is jointly organised by IAFSSG and AASC. IAFSSG was established in the year 2002 as a non-profit organisation with concerted efforts of some of the ARFF enthusiasts for promotion and dissemination of technical knowledge, awareness and up grading of fire safety standards among the ARFF personnel in particular, and personnel employed in the aviation sector in general. AASC is a new entity established in 2020 in the aviation safety market, the main three pillars of their service is professionalism, experience-led and reliability of solutions. They are working closely in collaboration with Ascension Safety Consultants of Singapore. IAFSSG successfully conducted its first national seminar in the year 2010 at Clarks Exotica Bangalore, an international ARFF Conference and Exhibition in the year 2014 at Taj West End and The Lalit Ashok Hotel, Bangalore followed by another international ARFF Conference and Exhibition in the year 2019 at Marriot Convention Centre, Hyderabad, India. The wholehearted support extended by both exhibitors and ARFF professionals giving us confidence in organizing yet another ARFF conference with an aim to bring all Indian and Overseas Aircraft Rescue and Firefighting professionals and other Aviation Fire Safety enthusiasts together under one roof for understanding each other's criterions and concerns.

WHO SHOULD ATTEND :

The conference aims to attract

- Aviation Experts
- Airlines Operators
- Civil Aviation Regulator
- Director General Civil Aviation
- International Civil Aviation Organization
- Federal Aviation Administration
- Airports Council International
- Airport Service Providers
- Fire Officer from Airports
- State/Municipal Fire Officers
- Indian Aviation Fire Safety Specialists
- Group (IAFSSG) Members
- Disaster Management
- International Aviation Fire Protection Association Members
- ARFF Working Group Members
- Airport Operational Officers
- Airport Directors
- Airport Safety Officers
- Airport Engineers
- Fire Protection Engineers, Manufacturers, and service providers
- Defence
- Regional Connectivity Airport Officers
- Civil Defence representatives

Nevertheless, if you are a specialist in any of the following field, don't miss this golden opportunity coming at your door step :-

- (a) Aircraft Rescue and Fire Fighting
- (b) Civil Fire Brigade
- (c) Manufacturers, suppliers and users of fire equipments
- (d) Aviation experts from Airports Authority of India
- (e) Airlines
- (f) Regulators
- (g) Fire Research Scientists
- (h) Fire & Life Safety officers
- (i) Environment Safety officers
- (j) Power plant
- (k) Oil/Gas sector
- (l) Hospitals and High Rise buildings

INTERNATIONAL AIRPORTS FIRE CHIEF WORKSHOP :

Primary objective of this Workshop is to create an exclusive opportunity for experienced brains to interact with each other and to share their creative ideas and constraints faced as Fire Chief in ARFF station functioning. The workshop is scheduled on 27 Feb 2024 from 1600 hrs to 1730 hrs followed by networking and cocktail dinner exclusively for the Fire Chiefs and invited guests

DRIVING AND FIREFIGHTING TRAINING ON SIMULATOR :

This is optional at a cost of INR 5,000/- per head for one day program at ARFF BIAL on 01 Mar 2024. Any participant willing to undergo the training will be exposed in sizing up, first 5 minutes of actions at an aircraft crash site and other crash site management through state-of-the-art Rosenbauer Simulator during morning hours. Certificates will be issued to all the attendees who successfully complete the training. Demo of HRET CFTs and a visit to newly built Terminal – 2 of BIAL during post lunch is complementary. Interested delegates may opt this for training while submitting delegate registration form and intimate through mail to iafssgeditor@gmail.com not later than 15 Feb 2024

SPONSORS :

This Conference will provide a right combination of advertising, sponsorship and show marketing opportunities for you to balance your decision to exhibit and be a partner of the event. As a sponsor your message will be extended to the entire aviation fraternity and decision makers. We invite your partnership by supporting as a sponsor for the successful launch of this international ARFF conference in India. Kindly mail your interest to our email id iafssgeditor@gmail.com.

- 1600 -1730 hours : International Airport Fire Chiefs Workshop.
1900 – 2130 hours : Networking Session followed by Cocktail Dinner.
(Fire Chiefs and Invited Guests).

28 Feb 2024 (Wednesday)

Day 2

- 0900 – 1000 hours : Delegates Registration.
1000- 1100 hours : Opening of Exhibition by Chief Guest.
1100 – 1130 hours : Coffee at Exhibition Hall *
1130- 1230 hours : Conference Technical Session 1
1230 – 1400 hours : Lunch *
1400- 1500 hours : Conference Technical Session 2
1500 – 1530 hours : Panel Discussion and Q & A for Papers 1 & 2
1530- 1600 hours : Tea at Exhibition Hall *
1600- 1630 hours : Equipment Supplier Presentation (Platinum Sponsor)
1630 – 1700 hours : Knowledge Sharing Session
1930- 2200 hours : Gala Dinner *

29 Feb 2024 (Thursday)

Day 3

- 0900 -1000 hours : Conference Technical Session 3
1000- 1030 hours : Equipment Supplier Presentation (Platinum Sponsor)
1030 -1100 hours : Coffee at Exhibition Hall *
1100- 1200 hours : Conference Technical Session 4
1200- 1245 hours : Panel Discussion for Papers 3 & 4
1245 – 1400 hours : Lunch *
1400 – 1500 hours : Conference Technical Session 5
1500 -1530 hours : Tea at Exhibition Hall *
1530 – 1630 hours : Conference Technical Session 6
1630-1730 hours : Panel Discussion and Q & A for Papers 5 & 6
1730-1800 hours : Valedictory Function

1 Mar 2024 (Friday)

Day 4 (Off-site venue at BIAL Airport)

- 1000 – 1130 hours : Driving Airport Foam Tenders Safely (Presentation)
1130- 1230 hours : View State-of-the Art Driving Simulator at BIAL ARFF Station.
1230-1330 hours : Lunch *
1400 -1430 hours : Demo of HRET CFTs
1500- 1630 hours : Visit Terminal 2 BIAL (New Terminal)

Note :

* - We invite sponsorship for Lunch, Gala dinner and Refreshment

** - Conference delegates keen to test and drive the simulator please intimate the conference organizers early. A separate charge of INR 5000 per head will be charged. Each session to last 20 mins.

ABOUT THE VENUE:

Discover serenity at Clarks Exotica Resort & Spa. Nestled across 70 acres of lush green landscape, against the picturesque backdrop of Nandi Hills and conveniently near Bangalore International Airport, our resort ensures a seamless transition after your journey.

Indulge your palate at our four multi-cuisine and specialty restaurants, catering to every taste. Whether you crave wholesome main courses or decadent desserts, your taste buds are in for a delightful experience. Our Café offers nutritious gluten-free options, while Illusion Bar crafts perfectly mixed drinks to your liking.

Unwind in the lap of luxury at Clarks Exotica Resort & Spa, where our world-class spa, Seventh Heaven, awaits. Our expert therapists, modern amenities, and time-tested treatments ensure you depart feeling revitalized.

Your well-being is our priority. Beyond our nutritious cuisine, rejuvenating spa, & inviting crystal-clear pool, we offer a fully equipped fitness center. There's no need to compromise on your daily routine - your gateway to revitalization.
